Career Objective

Seeking a challenging software testing role that provides opportunities to apply 4 years of expertise in manual, functional, and web application testing. Experienced in improving defect detection by 15% and accelerating issue resolution by 20%, while contributing to organizational growth through efficient and high-quality QA practices.

Experience Summary

- Led manual, functional, and web application testing processes with 4 years of hands-on experience.
- Derived comprehensive test cases from business requirements and technical specificati ons, improving coverage and reducing defects by 15%.
- Authored and executed 1,000+ test cases across multiple projects, ensuring high-quality deliverables.
- Applied solid understanding of SDLC and STLC to streamline testing workflows and red uce release delays.
- Performed Functional, Smoke, Integration, Manual, and Regression testing, identifying c ritical defects early in the release cycle.
- Adapted to both Waterfall and Agile methodologies, contributing effectively in cross-functional teams.
- Developed detailed test scenarios and applied test case design techniques to optimize te st execution time.
- Coordinated with developers and tracked defects using GitLab, accelerating defect resolution by 20%.
- Executed API Testing using Postman (methods: POST, PUT, GET, DELETE), validating sy stem reliability and performance.
- Built basic automation scripts using Selenium WebDriver, utilizing XPath, CSS selectors, and WebDriver interfaces.
- Good knowledge of Python (conditional statements, loop control statements, built-in-data structures, exception handling, Inheritance).
- Delivered timely QA sign-offs, earning client appreciation and strengthening long-term relationships.
- Actively participated in Agile ceremonies (daily standups, sprint planning, retrospective s) to ensure smooth delivery.

- Demonstrated strong teamwork, adaptability, and quick learning in dynamic project env ironments.

Professional Experience

Senior Member Quality Assurance - Test

Perfios Software Solutions Pvt. Ltd, Bangalore

September 2021 – Present

Academic Qualification

B.Tech in Electronics and Communication Engineering

KORM College of Engineering, Kadapa.

Technical Skills

Testing Skills: Manual Testing (Black Box, Functional, Regression, Mobile)

Documentation: MS Office, MS Word, MS Excel

Automation Tools: Selenium WebDriver, Postman, Pytest, Git

IDE: Pycharm

Test Management Tool: GitLab

Operating Systems: Linux

Languages: Basics on Python

Project Profile

Project #1: Unified Sales Assist/Lending

Role: Senior Member Quality Assurance - Test

Testing Type: Manual Testing,API Testing.

Tools Used: Manual Testing, Selenium, Postman, GitLab

Description: Streamlines banking operations to evaluate SMEs' financial health and fund disbursement for borrowers.

- Responsibilities:

    - Perform Functional, Smoke, Integration, Regression testing.
    - Support production deployments with sanity testing.
    - Making test documentation by marking test results.
    - Prepare test cases as per specifications.
    - Author and modify test cases based on enhancements.
    - Understand functional and business workflows.

- Testing APIs through postman.
- Execution of functional and regression test suite.
- Log and track bugs in GitLab.
- End-to-end testing and API validation.
- Adding Test Cases for the APIs and doing end-to-end testing.
- Conduct sanity tests on production builds.
- Hands on experience in writing small scripts using selenium.
