PROFILE

Having overall 2.6 years of extensive experience in both manual and automation software testing. Highly analytical Software Testing/Quality Engineer with proven expertise conducting testing and physical verification of sophisticated software and hardware.Dynamic leadership and communication skills, with experience training/mentoring team members and collaborating with R&D teams in accurate, timely resolution of product issues.Presently associated with Xenovex Technologies Pvt. Ltd, Chennai.

SKILL AND EXPOSURES IN SOFTWARE TESTING :

- Expert in manual and automated testing of web applications using Selenium WebDriver and TestNG.
- Developed a Selenium WebDriver framework using the Page Object Model, minimizing manual testing effort.
- Integrated automated testing into Jenkins CI/CD pipelines, enhancing process efficiency.
- Practical experience in API testing using Postman/Swagger.
- Performed database validation using SQL queries in Dbeaver.
- Conduct in-depth analysis and troubleshooting of software applications across multiple platforms.
- Hands-on experience working with smart home devices, wearable technology, industrial IoT devices, and healthcare IoT systems. (IoT testing)
- Participate in team meetings and build interdepartmental relationships to streamline efforts for ensuring timely release of bug-free software.
- Collaborated closely with development team to communicate test results and issues
- Adept in writing Test Cases, Test Scenarios, and documenting bugs with clear manner.
- Supervise, train and mentor fresher QA engineers.

Skill sets :

- ★*Test cases design*
- ★*Test execution*
- ★*Defect tracking*
- ★*Core java*
- ★*Java Stream*
- ★*Selenium TestNg*
- ★*Maven*
- ★*Web Testing Manual / Automation*
- ★*Mobile Application Testing*
- ★*Strong Communication*
- ★*Payment Gateway Testing(Stripe & Razorpay)*
- ★*Disaster Recovery*
- ★*Managed client calls and communications.*
- ★*Managed MQTT data transmission and processing.*

Xenovex Technologies Pvt. Ltd, — March 2025 - Present

1. PROJECT DETAILS : *Pay central*

PayCentral is a digital payment platform offering gift, pay, and fuel cards for employees, integrated with major organizations across South Africa.The system supports custom payment workflows and multiple payment gateways.

TECHNOLOGIES / PLATFORMS : *.NET, Angular, Swagger, BrowserStack, Jenkins, Figma, Payment Gateway*

- Followed Agile methodology, participated in daily scrum calls, contributed to sprint planning, and presented sprint demos.
- Tested end-to-end card features (load, reversal, activation, etc.)
- Performed API testing via Swagger and cross-browser testing using BrowserStack
- Ensured proper payment gateway integration and client-specific customization
- Logged defects and ensured retesting and closure.

Knowledge in Testing Methods :

- ★*API testing*
- ★*Smoke testing*
- ★ *Integration testing*
- ★*Functional testing*
- ★*Retesting*
- ★ *Regression testing*
- ★*Usability testing*
- ★*System Testing*
- ★*Compatibility testing*
- ★*Cross Browser Testing*
- ★*Automation testing*

TEAMTWEAKS Private Limited, — October 2022-2024 October

1. PROJECT DETAILS : *KarIoT_* *January 2024 - https://www.karikala.in/*

KarIoT is an IoT-enabled smart water management system that provides real-time monitoring of water quality and quantity for residential, commercial, and industrial sectors. Recognized as a top 7 startup in Tamil Nadu.

TECHNOLOGIES / PLATFORMS : *Web Application, Angular, PHP, Flutter & jira*

ROLES AND RESPONSIBILITIES :

- Designed and executed test scenarios for sensor creation, customer categorization, and payment updates of Saas.
- Measured response times in real-time communication between devices and cloud platforms.
- Conducted live testing by triggering actions from devices, and tested multiple flow and pressure sensors, as well as motor functionality.

2. PROJECT DETAILS : *6D-Healthcare_* *January 2023 - June 2023*

Health and wellness platform that offers an app to manage Diet, Workout, Sleep, Stress, and Fasting with the help of a coach, collectively known as 6D.

TECHNOLOGIES / PLATFORMS : *Web Application, Flutter, Figma, Trello, LambdaTest & BrowserStack*

ROLES AND RESPONSIBILITIES :

- Analysis of test requirement and automation feasibility with selenium using TestNG framework.
- Created customized XPATH and CSS Selector for identifying the objects.
- Tested Integration testing for payment gateway (RazorPay)

3. PROJECT DETAILS : *Handypro_* *Live Support*

https://book.handypro.com/

Developed HandyPro, an app that connects users with licensed professionals for home repair services,. Facilitated seamless access to plumbing, carpentry, appliance repair, and painting services for both residential and commercial needs.. It consists of web and mobile applications.

TECHNOLOGIES / PLATFORMS : *Web Application, Angular, Android, iOS & GitHub*

ROLES AND RESPONSIBILITIES :

- Actively engaged with clients in the absence of a Business Analyst, discussing feedback and new enhancements. Managed bi-weekly client calls to address requirements and provide updates.
- Collaborated with developers and the database team on disaster recovery testing, focusing on cloud-switching scenarios between Azure and AWS.

4. PROJECT DETAILS : *deliverbag_* *July 2023 - February 2024*

Developed and managed Deliverbag, an application specializing in comprehensive baggage management solutions across France. The platform offers secure, customized services for luggage delivery, storage, and transport.It consists of web and mobile applications.

TECHNOLOGIES / PLATFORMS : *Web Application, Angular, Flutter & Mantis*

ROLES AND RESPONSIBILITIES :

- Designed and developed test scenarios for mobile and web applications, focusing on slot booking functionality, dynamic categories. Actively engaged with clients in the absence of a Business Analyst.

Knowledge in Tools :

- *Jira*
- Trello
- TestRail
- Lambda Test
- BrowerStack
- ShareX
- Postman
- MantisBT

CERTIFICATION :

- ★ *Manual & Automation testing in Besant Technology.*
- ★ *Manual Testing certified in Udemy*

EDUCATION :

Prist University , Chennai
—Bachelor of Engineering

- Mechanical engineering (2015-2019) with 6.86 CGPA

St Mary's Matriculation Higher Secondary , Chennai

- HSC (2014) with 51.92 %
- SSLC (2012) with 70.8%
