Work Experience

Enterprise Account Executive I Integrated Business Environment India Pvt Ltd

July 2025 – Currently working

- Collaborated with business leadership to define project priorities, evaluate solution alternatives, and prepare detailed work and financial proposals aligned with client objectives.
- I work closely with SMBs and mid-market companies to implement a powerful, all-in-one ERP system that covers time & expense tracking, project management, invoicing, and more.
- My goal is to align our ERP capabilities with real business needs - delivering scalable solutions with measurable impact and driving high-margin business from key accounts across North America Region.
- Managing the full sales pipeline using iBE CRM, including forecasting, lead tracking, and opportunity conversion to improve sales accuracy by 22%.
- Focused on account growth and new business acquisition, contributing to a 20% YoY increase in client portfolio through upselling, cross-selling, and strategic outreach.

Sales Manager I HIC Global Solutions

Jul 2021 – May 2025

- Served as the strategic liaison between client stakeholders and internal tech teams to design and deliver customized Salesforce CRM and AppExchange solutions.
- Led end-to-end discovery sessions to gather detailed business requirements and convert them into scalable Salesforce configurations, automations, and workflows.
- Designed functional use cases and managed user story documentation for CRM optimization and AppExchange product rollouts.
- Delivered consultative onboarding, training, and post-implementation support for HIC's suite of AppExchange tools, improving client adoption rates by 35%.
- Successfully enabled $1,000K+ product sales by positioning free-to-use Salesforce tools with value-based consultative selling.
- Engaged enterprise clients across global markets (USA, UK, EMEA, APAC) in sectors such as education, retail, and real estate to implement tailored CRM strategies.
- Collaborated with pre-sales, solution architects, and customer success teams to align offerings with business needs and ensure smooth delivery of Salesforce projects.
- Defined project scope, translated business needs into actionable technical deliverables, and oversaw UAT planning, go-live execution, and change management.
- Partnered with C-level executives to map business goals to CRM capabilities and formulate long-term digital transformation strategies.
- Drove upselling and cross-selling of Salesforce services by identifying CRM gaps, increasing client spend, and contributing to $1M+ in annual upsell revenue.
- Generated new pipeline through lead nurturing campaigns, client referrals, and outbound efforts, boosting customer acquisition and reducing sales cycle length by 20%.
- Championed customer success and lifecycle engagement, resulting in improved satisfaction scores (CSAT +28%) and multi-year account renewals.
